# OUR SERVICES

---

p

**Design Review & Conformity Assessment:** Independent third-party review of electrical installation designs against NEC 2023 and IS 732 and IEC 60364 covering DC installations, rising mains, parallel conductor systems, and high-risk installations.

**Training & Capacity Building:** Structured, specialised, and bespoke training programmes on the requirements for electrical installation design, inspection, and testing, delivered by practising standards committee members.

**Site Audits & Troubleshooting:** On-site electrical audits across residential, commercial, and industrial environments to identify non-compliances, latent safety risks, and recommend corrective action.

**Consulting for Manufacturers & Service Providers:** Authoring IEC-aligned technical consulting, product documentation, articles, whitepapers. Advisory support to help manufacturers engage end-users on installation compliance

# OUR EXPERTISE

p

**IEC TC 64:** We represent India as Project Leader and member across nine subgroups of TC 64, the IEC committee responsible for the IEC 60364 series, the framework on which India's National Electrical Code is based.

**Bureau of Indian Standards:** We sit on multiple BIS technical committees including ETD 20, directly responsible for the National Electrical Code of India, and the working group revising the electrical installations chapter of the National Building Code.

**Rare Depth:** We are one of a handful of specialists in India with active involvement at both IEC and BIS level in electrical installation standards.

**Training:** Over 10,000 professionals trained across India on the practical application of NEC 2023 and the IEC 60364 series.

**Recognition:** Interviewed by leading electrical industry publications and podcasts in the UK.

# WHY ENGAGE US?

p

**Source-level knowledge:** Our involvement in IEC TC 64 and BIS technical committees gives us direct insight into the intent behind every provision in a standard, not just its wording.

**Ahead of the curve:** Our participation in standardisation means we understand not just current requirements but the direction of travel, helping clients make decisions that remain compliant as the landscape changes.

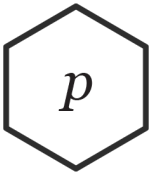

**Application-specific support:** Our work spans design consultants, architects, equipment manufacturers, and property developers. We translate normative language into practical, implementable guidance.

**Credibility by association:** Clients who work with us benefit from alignment with specialists recognised at the highest levels of the Indian and international standards ecosystem.

**Safety outcomes that matter:** India leads the world in electrocution deaths per capita. Our work is motivated by changing that, and every engagement contributes to safer installations on the ground.

# PRINCIPAL CONSULTANT

**Krish Theobald**

*Principal Consultant*

- Member, BIS- ETD 20, ETD 50 & CED 46 P13 WG 3
- Convenor- BIS ETD 20/WG 05
- Member, IEC TC 64- MT1, MT 2, MT9, MT 12, MT 17, MT 42, WG 43 & WG 48
- Convenor- IEC TC 64/PT 61200-206
- Guest faculty at NITS on NEC Capsule Course

Owner and Director of :

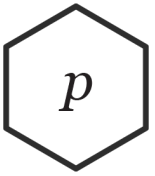

- ProtegoPlus Electrotech Pvt. Ltd. (Mumbai)
- T&G Electrotech Pvt. Ltd. (Chennai)

BIS: Bureau of Indian Standards

IEC: International Electrotechnical Commission

NITS: National Institute of Training for Standardisation

# CLIENT PROFILES

---

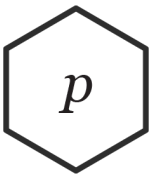

We have serviced 25+ clients with the following profiles:

- High net-worth homeowners
- Real estate developers (residential and commercial)
- Hotels
- Corporates
- Manufacturers
- Electrical consultants
- Data centre operators
- Educational and training institutions

# CLIENT TESTIMONIALS

---

We brought in ProtegoPlus Electrotech Pvt. Ltd. to help us understand our IEC compliance obligations for an upcoming product. They identified the relevant standards, explained what was required in simple terms, and gave us clear, well-reasoned advice on the best approach for our product's safety and conformity assessment.

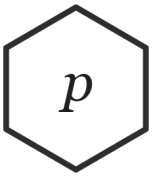

Exactly the kind of specialist support we needed- highly recommended.

~ David Collinson, Director, PowerUp Offgrid Services Ltd.

# CLIENT TESTIMONIALS

---

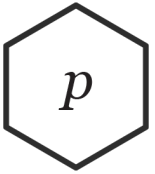

ProtegoPlus Electrotech Pvt. Ltd. have been providing technical consultancy for our Doepke product range. Their expertise has opened doors for us across several sectors, including solar PV, EV charging, elevators, and escalators. Their ability to engage credibly with clients at a technical level has been instrumental in developing our business.

~ Vishal B Kashid, Managing Director, B-MAC Controls Pvt. Ltd.

# CLIENT TESTIMONIALS

---

We, the Directors of Empower Designs Pvt. Ltd., Mr. Imran Moulavi and Mr. Gurudatta Lalge, express our sincere appreciation to Mr. Krish Theobald of ProtegoPlus Electrotech Pvt. Ltd. for his exceptional support over the past one year through his online consultancy services. His in-depth knowledge of BIS and IEC standards has significantly enhanced our technical capabilities and ensured our adherence to industry best practices. Having someone like Mr. Krish, who actively contributes to the development of these standards, interpret them for us has provided a clear and practical understanding of otherwise complex requirements.

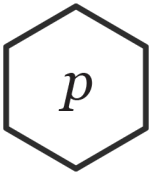

His clarity, practical approach, and prompt guidance make him a true expert in his field. The depth of insight he brings is rare and highly valuable, and it has been a pleasure working with him. We are truly grateful for his continuous support and knowledge sharing, and we wholeheartedly recommend his services without any hesitation.

~ Imran Moulavi & Gurudatta Lalge, Directors, Empower Designs Pvt. Ltd.

# CLIENT TESTIMONIALS

---

We engaged ProtegoPlus Electrotech Pvt. Ltd. to conduct a technical webinar focused on cable accessories and compliance with the National Electrical Code of India (NEC).

The webinar was exceptionally well-structured, technically comprehensive, and delivered in a highly engaging manner. The presenters demonstrated strong subject expertise while effectively addressing practical industry requirements and compliance considerations.

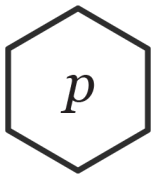

The session received an excellent response from the participants, with active engagement and positive feedback throughout the program. We are extremely satisfied with the overall execution and outcome of the webinar and appreciate the professionalism demonstrated by the ProtegoPlus team.

~ Nehal Gandhi, Partner, A-1 Electricals LLP
